Press Release - March 2020

Photek LTD announces the formation of Photek USA LLC, a US sales and technical support center. Photek USA is building a US-based team to enter new markets and launch new products while supporting the long-standing relationship with Sydor Technologies (Sydor) and their strength in servicing the DOE NNSA Laboratories and Mission Support Services.

Sydor will continue to represent Photek products in their diagnostic solutions designed for their key DOE NNSA customers including: Los Alamos National Laboratories (LANL), Sandia National Laboratories (SNL), The Laboratory for Laser Energetics (UR/LLE), Lawrence Livermore National Laboratory (LLNL) and Mission Support and Test Services (MSTS).

Beginning April 1, US orders and inquiries outside of those listed DOE NNSA Laboratories and support customers should be directed to:

Photek USA LLC
313 W. Liberty St., Ste. 256
Lancaster, PA  17603

About Photek:

Photek is a specialist manufacturer and global supplier of vacuum based tubes and camera systems for photon detection. Their comprehensive range of products includes Image Intensifiers, Solar Blind Detectors, Photomultipliers, Streak Tubes and a range of associated electronics and Camera Systems. Photek has a unique ability to partner with their customers to design, manufacture and support complete, bespoke solutions for the most demanding photon detection and imaging requirements. They are recognized as a global leader in the design and manufacture of large area image intensifiers, ultra-fast photomultiplier tubes (PMTs), UV detectors and advanced photon counting camera systems. Photek products support specialist applications in; Physics (high energy, particle, nuclear), defense industries (threat warning), physical chemistry, bioluminescence, space science, material and biological inspection.

About Sydor Technologies:

Sydor Technologies is a global leader in providing comprehensive, customized solutions for the most complex measurement challenges in the defense, energy, security and research industries. Products span a range from streak cameras to x-ray detectors, high-performance electronics, and ballistics testing equipment. Sydor Technologies is the North American distributor for Kentech Instruments and Photek Limited. The company operates in 33 countries around the world with its world headquarters located in Fairport, New York.
